August 28- August 30	So Long Summer!	9am-12pm	Ages 4-8	\$132	\$45 per day

Little Foodies

Turn your little munchkins into little foodies in this camp as we create fun, delicious treats! Kids will embark on a cooking and sensory adventure while developing their taste buds for fresh and healthy food.

Make a Masterpiece

In this bright and colorful camp we will explore the works of Pablo Picasso, DaVinci, Henri Matisse, Andy Warhol, Jasper Johns and more! Join in as we learn about these famous artists and their techniques. This camp includes collage, sculpture, painting and more!

Summer Science Matters For Kids

This camp will include lots of questions and experiments that will get your child thinking. They will experience and investigate with household materials to discover the world around them. Science is part of their everyday lives, they just have to know where to look!

Coding-3D Game Design

With Kodu, a 3D visual language that has an easy to use interface, creating video games is easy! This camp encourages students to use problem solving, and creative thinking skills to create a unique and personalized game all while learning the fundamentals of programming.

So Long Summer!

Have fun as we create artwork inspired by the end of Summer! Of course there's time for fun, games and snacks too!
